

## Hippo Manager

## Shepherd Veterinary Software

FOR YOU	Widgets are required to complete all aspects of an appointment.	<b>Workflow</b>	Easily create estimates, treatment plans, and invoices in just one step with a SOAP-based workflow.
	User-friendly interface but may require more navigation to complete tasks.	<b>Ease of Use</b>	Intuitive interface designed by a veterinarian and accessible from any device.
	Limited or manual form processes.	<b>Forms</b>	Embedded forms are automatically sent with appointment notifications and auto-saved to the record.
	General support.	<b>Support &amp; Feedback</b>	In-software chat support from experienced veterinary professionals. Built-in feature request and feedback tool.
FOR YOUR BUSINESS	Requires a third-party that does not integrate.	<b>Payment Processing</b>	Easy invoicing and payment reconciliation with our integrated solution.
	Limited reporting options.	<b>Reporting</b>	Robust financial and operational reporting.
	Basic inventory tracking.	<b>Inventory Management</b>	Advanced inventory management with real-time tracking, reorder reporting, and automatic price increases.
	Basic administrative functions.	<b>Administrative Features</b>	Statement management, automated task creation, bulk edit tools, and a built-in time clock.
FOR YOUR CLIENTS	Basic reminders and notifications.	<b>Communication &amp; Scheduling</b>	Two-way texting, customizable appointment templates and reminders, boarding calendar, and pet portal.
	Standard features for managing patient care.	<b>Clinical Tools</b>	Comprehensive patient history, whiteboard, prescription management, and interactive body maps.
	No AI-powered tools.	<b>AI Technology</b>	Diagnostic AI and speech-to-text for enhanced exam room experience.

We're here to make your move from Hippo Manager to Shepherd as seamless as possible.
